NEOTERRA ORGANIC-C™

Organic Soil Conditioner from the Nordics

Increases soil organic matter

Improves soil structure

Boosts microbial
activity

NEOTERRA ORGANIC-C™

Improving soil organic carbon concentration, microbial activity and soil health.

NeoTerra Organic-C™ – Organic soil conditioner

NeoTerra Organic-C™ is an organic soil conditioner produced from pure and carefully selected organic peat. It contains high levels of organic matter and high capacity to increase organic carbon concentration in the soil, thus improving the physical characteristics of the soil. Due to its composition NeoTerra Organic-C™ also has a powerful prebiotic effect boosting microbial establishment and activity.

Neova – Creating green growth

Neova is a Finnish company with global presence, focusing on satisfying people's essential needs for clean food, air and water. Since over 80 years peat has been the core of Neova's history, investigating peat qualities and utilizing peat in high quality professional substrates and growing media products.

It is a natural step for us to bring the benefit of our valuable raw

material to a wider audience as organic soil conditioner products. In addition, we investigate and develop other raw materials, botanical extracts and microbials, found in the harsh Nordic environment. Neova follows the world's strictest environmental regulation related to peatlands and raw material production, **to bring the best of Finnish nature to your fields.**

Growledge operating model

Our Growledge operating model combines a customer-oriented approach with scientific research. This approach serves as a solid foundation for the development of every new product.

NeoTerra Organic-C™ Key benefits for the crops

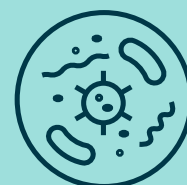

Increases soil organic matter

NeoTerra Organic-C™ contains high levels of organic matter and high capacity to increase organic carbon concentration in the soil.

Improves soil structure

NeoTerra Organic-C™ due to its composition can significantly improve the soil structure.

Boosts microbial activity

NeoTerra Organic-C™ has a powerful prebiotic effect, boosting microbial activity.

NEOTERRA ORGANIC-C™

THE BEST OF FINNISH NATURE TO YOUR FIELDS

- NeoTerra Organic-C™ is an organic soil improver which enhances the organic matter and organic carbon concentration in soils.
- Ingredients: 100% RPP-certified peat, with virgin material substances and mixtures .
- Suitable for organic farming in horticulture.
- Pathogen-free and odorless.

Dry matter (DM)	88–90 m-%
Organic matter, average	96% DM
Organic carbon (C _{org}), average	56% of organic matter 52% DM 47 m-%
Organic nitrogen (N _{org})	1% DM
C _{org} / N _{tot} ratio, average	52
Humic substances	25–40% DM
pH	4.0
Electrical conductivity	15–30 mS/m
Bulk density	740 kg/m ³
Product form	Solid, odorless pellets with 6 mm diameter
Dosing	Localized application: 0.5–1 t/ha. General application in the soil: 1–1.5 t/ha. Exact dosages are subject to local conditions and the type of crop.
Available in	25 kg, 500 kg, 1,000 kg
