NEOVA AGRO

Solutions for agriculture

Neova Agro is a business area of Neova Group focused on crop solutions and animal nutrition. Our portfolio includes biostimulants, soil performance solutions and animal nutrition products. Our work combines a Finnish raw material base with advanced R&D, validation and manufacturing in our own factories.

Growledge operating model

Our Growledge operating model combines customer needs with scientific research and validation, providing a solid foundation for the development of every new product.

Proprietary raw materials ▶ **Research & validation** ▶ **Proven solutions**

OUR TECHNOLOGY PLATFORMS

Innovative solutions for plants and animals

CROP SOLUTIONS

Peat-Based Biostimulants
Bioactive peat-based solutions supporting plant metabolism, root development and resilience.

Soil Performance Solutions
Improve water retention, organic matter content and soil health.

Microbial Solutions
Microbial solutions for nutrient use efficiency and plant resilience.

Plant Extracts
Novel bioactive raw material derived from wetland plants.

ANIMAL NUTRITION

Peat-Based Feed Materials
ProHumi® products are available through Hankkija Oy.

Peat Extracts
Peat-derived extracts for innovative animal nutrition applications.

From Finnish nature to advanced solutions

Our technology platforms, scientific expertise and own manufacturing capabilities enable us to develop reliable solutions for crop production and animal nutrition.

INNOVATION FROM FINLAND

WHY WORK WITH NEOVA AGRO

Own raw material base

Own Finnish raw materials provide a reliable and traceable foundation for our products.

Advanced R&D and validation

Advanced analytical, molecular and biological methods, from laboratory to field validation.

Own manufacturing

Extraction and production from pilot to commercial scale.

Partner support

Technical product information, application guidance and commercial support for partners.
